# Curriculum Vitae

## Abraham Gonzalez

3016 Guadalupe Street Unit 301, Austin, TX 78705 abe.j.gonza@gmail.com — (915)-545-3405 — linkedin.com/in/abraham-j-gonzalez/

#### Education

## Bachelors of Science — Electrical Engineering

May 2018

The University of Texas at Austin

GPA — Overall: 3.98/4.00 Major: 3.98/4.00

#### Relevant Coursework

**Computer Engineering** — Computer Architecture, Digital Systems Design Using HDL, Embedded Systems Design Lab, Real-time Operating Systems, Digital Logic Design, Software Design I & II, Algorithms, and Honors Engineering Design I & II.

**Electrical Engineering** — Electric Circuits Lab, Solid State Electronic Devices, Electromagnetic Engineering, Circuit Theory, Intro to Probability, and Engineering Communication.

## Experience

#### Microsystems Technology Lab Intern

Jun. 2017 - Aug. 2017

Massachusetts Institute of Technology — Cambridge, MA

- Researched variations in electroplating growth in redistribution layers under the supervision of Dr. Boning.
- Designed various neural networks and machine learning models for electroplating growth using Tensorflow.
- Presented final research poster summarizing work and participated in multiple MITSRP workshops.

#### Printing Electronics Research Assistant

Jan. 2017 - Jun. 2017

The University of Texas at Austin — Austin, TX

- Researched and fabricated printed antennas under the supervision of Dr. Chen.
- Printed and tested fixed PAA antennas on Kapton with various nano-particle inks.

## QCA Research Assistant

May 2015 - Aug. 2016

The University of Texas at Austin — Austin, TX

- Researched and designed Quantum Cellular Automata (QCA) circuitry with Dr. Swartzlander.
- $\bullet \ \ {\rm Optimized} \ \ {\rm QCA} \ \ {\rm implementations} \ \ {\rm of} \ \ {\rm the} \ \ {\rm Carry-Lookahead} \ \ {\rm and} \ \ {\rm Conditional} \ \ {\rm Sum} \ \ {\rm adder} \ \ {\rm through} \ \ {\rm QCA} \ \ {\rm Designer}.$
- Reported back to Dr. Swartzlander on results and improvements to QCA circuit designs and layouts.

## Office Shared Graphics Explore Intern

May 2016 - Aug. 2016

Microsoft — Redmond, WA

- Created and added new features to the Office Ink suite using C++.
- Investigated new feature sets with other Microsoft Program Managers and customers.
- Created physical network of Arduino microcontrollers for OneWeek Hack-a-thon that once connected to each other sent a unique code to the main server (HTTP requests).
- Collaborated with senior engineers and engineers on software design and implementation.

#### UIM Driver Intern

May 2015 - Aug. 2015

Qualcomm — San Diego, CA

- Designed software framework for smartcard interaction in C++/CLI and C++.
- Integrated designed framework into .NET application managing smartcards via CCID by utilizing APDU transmission and logging; file system viewing; file data parsing and manipulation; and smartcard reader management.
- Communicated with engineers on software design and implementation.
- Created gesture controlled car with Particle Core for Hack-Mobile Hack-a-thon.

## Electronic Cooling Research Lab Assistant

Jun. 2012

Villanova University — Villanova, PA

- Participated in constructing and remodeling a cooling test mechanism.
- $\bullet$  Investigated techniques to cool spherical devices within a wind tunnel.
- Communicated with Ph.D. students and Masters students.

## Conferences

# Society of Hispanic Professional Engineers National Conference

Nov. 2017

Society of Hispanic Professional Engineers — Kansas City, MO

- Participated and won the 2nd place award in the Engineering Science Symposium (ESS) Poster Competition.
- Selected as 1 of about 40 students nationally for ESS Poster Competition.

• Attended Engineering Science Symposium Oral Presentations and workshops.

### Supercomputing Conference - SC15

Tezzaron Semiconductor — Austin, TX

- Worked with the Tezzaron company booth as an usher during exhibit fair.
- Networked with other high performance computing (HPC) companies.

#### Qualcomm DECA Conference

Jan. 2015 - Feb. 2015

Nov. 2015

Qualcomm — San Diego, CA

- Developed professional and social skills through mock interviews and workshops.
- Participated and won Qualcomm QHack.
- Selected as 1 of 51 students nationally for DECA Conference.

#### Presentations

#### Capstone Design Showcase

Nov. 20, 2017

The University of Texas at Austin — Austin, TX

• Project Presented: Enhancing an Out-of-Order Processor Simulator for Cloud Applications.

## Engineering Science Symposium Poster Session

Nov. 3, 2017

Society of Hispanic Professional Engineers National Conference — Kansas City, MO

- Research Presented: A Machine Learning Approach to Modeling Electroplating Process Variations in IC Redistribution Layers.
- Awarded 2nd Place in Engineering Science Symposium Poster Competition.

#### MITSRP Poster Session

Aug. 10, 2017

Massachusetts Institute of Technology — Cambridge, MA

• Research Presented: A Machine Learning Approach to Modeling Electroplating Process Variations in IC Redistribution Layers.

## **Projects**

# Enhancing an Out-of-Order Processor Simulator for Cloud Applications — Capstone Project

- Designed and developed new software data-structures for emulating simultaneous multithreading on ZSim.
- Worked with an out-of-order processor pipeline to introduce new hardware scheduling schemes to ensure quality of service for latency critical tasks.
- Presented a poster of final results at The University of Texas Electrical Engineering Spring Open House.

## Bounce Music App for Android — Individual Project

- Designed and developed an app in which a user can stream music to multiple phones within the same vicinity.
- Used Spotify API to access and display a catalog of music and sockets for basic connection capabilities.

## Skills

# Programming Languages —

- Highly Proficient: C, C++, C++/CLI, Python, TensorFlow, Verilog, VHDL, Git, and LC-3 Assembly.
- Proficient: ARM Assembly, Android Java, C#, and Subversion.

Embedded Systems — Tiva Launchpad, Arduino, SparkFun, and Particle Core microcontrollers.

**Electrical Equipment** — Soldering, oscilloscopes, logic analyzers, and multimeters.

## Professional Leadership and Membership

Corresponding Secretary — Eta Kappa Nu Electrical Engineering Honor Society	Summer 2017 - Present
Member — Eta Kappa Nu Electrical Engineering Honor Society	Spring 2016 - Present
Member — Institute of Electrical and Electronic Engineers	Fall 2014 - Present
Member — Society of Hispanic Professional Engineers (SHPE)	Fall 2014 - Present
Pi Tutor — Equal Opportunity in Engineering (EOE)	Fall 2015, Fall 2017
Academic Director — Society of Hispanic Professional Engineers	Summer 2016 - Summer 2017
Organizing Committee Member — 3 Day Startup Austin	Fall 2014 - Fall 2015
Participant — 3 Day Startup Austin	Fall 2014

# Honors and Awards

s and Awards	
GEM Fellowship Recipient — GEM	Spring 2018
Highest Honors — The University of Texas at Austin	Spring 2018
Distinguished College Scholar — The University of Texas at Austin	Spring 2018
Academic Leader Hall of Fame Inductee — Equal Opportunity in Engineering Program	Spring 2018
Roberto Rocca Scholarship Recipient — Tenaris	Fall 2017
Second-Place Award Winner — SHPE National Conference Poster Competition	Fall 2017
Distinguished College Scholar — The University of Texas at Austin	Spring 2017

Victor L. Hand Scholarship Recipient — Victor L. Hand Endowed Scholarhip FundFall 2016College Scholar — The University of Texas at AustinSpring 2016Diversity Scholarship Recipient — Texas InstrumentsFall 2015Freshman Academic Excellence Award Winner — EOE and SHPESpring 2015
